

Servis® 2160 Hydraulic Boom Rotary Cutter

The Servis 2160 is designed for agricultural applications including cutting grass, weeds, and material up to 2" in diameter on an intermittent basis.

The SV2160 is designed to work with **CAT II-III quick hitches**.

With a **maximum horizontal reach of 21'** and a **vertical reach of 22'6"**, the 2160 outperforms conventional ditchbank mowers in hard-to-reach areas. Optional **electro-hydraulic control** eliminates the need for multiple remote valves.
