

Rhino® Rear Blades for Tractors from 20HP to 65HP

Rhino has a rugged rear blade ready to work for you. Rhino blades are built based on over 50 years of blade building experience making you more efficient.

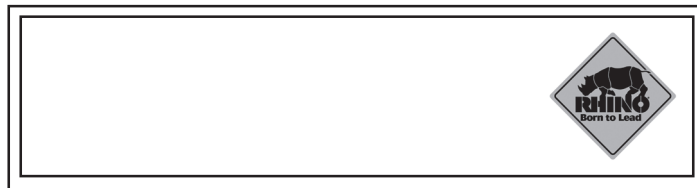

Available in 5', 6', 7', and 8' widths (Depending on model).

Every blade features sturdy "A" frames and multiple adjustment settings.

All Rhino rear blades can be reversed for easy backfilling of material.

Precisely-formed moldboards and easily replaceable cutting edges make Rhino an easy choice when it comes to rear blades.
