

FOR A SMOOTH CUT...

BENEFITS

BUILT-IN BAFFLES

The Tapered, sloped discharge area provides even distribution of cut material across the width of the mower, with less clumping and windrowing than similar mowers that use chain guards or rubber deflectors.

EASY LUBE SPINDLES

Three blade design with 1 possibility of streaks and skips in your yard.

Available in 5 for your yard and tractor.

Top and bottom hitch points are mower to ride with your yard

DURABLE ABS SAFETY SHIELD

Durable ABS molded safety shields are standard to provide safe operation for years to come and easy access to lube points.

Over-the-deck axle design provides outstanding structural integrity and easy access to conventional height adjustments.

Easy maintenance with top mounted spindle lube points allow you to maintain your machine without removing safety shields.

Built-in baffles help control the air and material flow through the cutting chamber, assuring an even cut and even material distribution across the width of the mower.

Specifications	FA-513	FA-613	FA-713
